Get Counted!

The 2010 Census Will Begin Soon!

Why Participate?

- The population totals from this census will determine the number of seats each state has in the House of Representatives.
- States also use the totals to redraw their legislative districts.
- The totals also affect funding in our community, and data collected in the census help inform decision makers of how our community is changing. (Approximately \$300 billion in federal funding is distributed to communities each year).
