Years employed with the city: 4 years

What do you enjoy most about working for the city?

I enjoy working for an organization that has a specific purpose which is to put "People First." I admire all the people who work for the City. Sharing a common purpose makes this a great place to work.

What changes (if any) have you seen occur in the city over the months/years?

The City is always striving to make our community a better place. Since I began working for the City of Thibodaux, I have seen many positive changes. For example, since the City installed a new communications system we are able to communicate more effectively with the community and internally. The new system will soon make it possible for many online services to become available to the community. The City is constantly changing to best meet the needs of Thibodaux residents.
