Message from the Mayor

“With spring still in the air, we tend to think of all the new life that this time of the year brings to us. Whether it’s the spring cleaning of your home, the trimming of shrubs in the yard, the planting of annuals in the flower bed or, in my case, the drudgery of keeping our pool clean; spring always brings about a sense of new beginnings.”

Family Preparation

PREPARE FOR AN EMERGENCY

- Know what emergencies or disasters are **most likely to occur** in your area and have a emergency kit pre-assembled.
- Inquire about **emergency plans** at places where your family spends time: work, daycare and school, faith organizations, sports events and commuting.
- Refill prescriptions** so that you always have a seven (7) day supply.
- Identify responsibilities** for each member of your household and plan to work together as a team.
- Know the difference between different weather **alerts** such as **watches** and **warnings** and what actions to take for each.
- Learn about your community's **warning signals** and frequently monitor television, NOAA radio, Internet and mobile apps.
 - » Don't wait until the storm approaches to download your apps.
- If there is a chance you will have to evacuate, turn the refrigerator and freezer to the **coldest setting** and keep them closed as much as possible so that food will last longer if the power goes out.

- Veterinary and vaccination records for pets and livestock.
- Photos of your home and possessions.

EMERGENCY FUNDS

- Several factors should be considered as to how disasters will affect your family financially. You should be prepared to sustain yourself and your family away from your home for **several days** or, in a worst-case scenario, **several weeks** or even **months**. Be advised, government agencies may not be able to react as quickly as you think they should.
- Evacuation expenses** include fuel, restaurants and your stay in hotels. When deciding how much cash to bring for each day, keep those three (3) items in mind and plan accordingly.
- Average **pet boarding costs** are different for each animal depending on size and special needs.
- You should budget enough money to pay for a **month's supply** of prescription medicines.
- During a disaster, credit and other bank card use may be limited due to loss of power and other disaster-related factors. Get more **cash** than you think will be necessary.

Pets

DISASTER PREPAREDNESS FOR PETS

Make sure you have:

- Food and water** for at least three (3) days for each pet.
- Food and water bowls** and a manual can opener.
- Depending on the pet, pack litter and litter box or newspapers, paper towels, plastic trash bags, grooming items and household bleach.
- Don't forget **pet medications** and medical records stored in a **waterproof container**, a first aid kit and a pet first aid book.
- Sturdy leashes, harnesses and carriers** to transport pets safely and to ensure that your pets cannot escape. A carrier should be large enough for the animal to stand comfortably, turn around and lie down. Your pet may have to stay in the carrier for hours. Be sure to have a secure carrier with no loose objects. Include blankets or towels for bedding and warmth and other special items.
- Bring pet toys and the pet's bed, if you can easily take it, to reduce stress.
- Current photos** and descriptions of your pets to help others identify them in case you and your pets become separated, and to prove that they are yours.
