## **Correction: Refurbishment of Canal Boulevard Water Tower**

**Thibodaux** - On January 28, work will begin to refurbish the Canal Boulevard Water Tower located at St. Philip Street and between West 8th and 9th Streets. For the duration of the project, St. Philip Street will be open to residential traffic only between Canal Boulevard and the rear entrance to the fire station at West 8th Street.

The project is expected to last approximately 120 days and will be a complete refurbishment of the tower including sand blasting, painting the outer shell of the tower, and cleaning the interior of the tower.

We apologize for the inconvenience.
